Consumers Credit Union Announces Renovation of Mundelein Office

Extensive remodeling project will be completed by late summer

Mundelein, IL, June 3, 2008: Reconstruction plans for Consumers Credit Union's Mundelein Branch are well on their way to completion. The branch, which first opened its doors in August 1987, is in the undergoing a complete transformation, bringing a variety of state-of-the art improvements to the facility. The remodeling project is tentatively scheduled to end late this summer.

"Consumers Credit Union is very excited about the innovations we're bringing to the Mundelein office," noted Sean Rathjen, CCU President. "While Mundelein is the second oldest branch, it will become a high-tech facility once this project is completed. Upgrading this office will help us provide members with the excellent service they deserve. As a result, this project is an important part of Consumers Credit Union's long term growth plans."

The Mundelein office already has a new ATM in the drive through to improve Member service 24-hours a day, seven days a week. Some of the changes that will lead to better Members service include private offices, enhancing confidentiality for Members. Improvements to the drive-through lanes and the addition of new cash dispensers will help the credit union deliver faster and more efficient service. The office will also be more visually appealing, with a new curved Counter Service area in the lobby.

When the project is completed, the Mundelein office will include closed-circuit television programming on high-definition 46" flat-screen televisions. While in the branch, Members can enjoy the very latest news about current events, weather and stocks, along with information about product and service specials at the credit union. To help accommodate parents, the remodeled facility also features a children's area with cable TV.

"We are confident Members will really enjoy the 'new' Mundelein office," continued Rathjen. "Watch for information about the Grand Re-Opening Celebration coming this fall!"

For more information about remodeling project, contact Sean M. Rathjen, Consumers Credit Union President, at 847.782.4670. CCU is Member-owned, with offices in Waukegan, Mundelein, Round Lake Beach, Gurnee, and North Waukegan and online at www.myconsumers.org, with a new CCU location coming soon to Volo, IL!
